

BUC-C200

BUC-C200 is block up-converter with fixed output power 200 W. BUC-C200 has LED status indication at the rear side.

The 200W C-band BUC is a rugged, compact solid state amplifier (SSPA) with integrated block up converter (BUC) suitable for fixed and mobile satellite communications with high data rate or multicarrier requirements. The 200W C-band BUC is an outdoor, environmentally sealed product that can be mounted close to the antenna feed to reduce waveguide loss.
